[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO AUGUST 8.

EASTERN STATES.

Kentucky Election—Large Republican Gains.

BRANDENBURG, August 7.—Democratic State ticket 93 majority.

ROCKPORT, August 7.—In Corrattsville precinct Democratic State ticket 24 majority. In Glasgow, Leslie, (Dem.) for Governor, 39 majority. In Morfordsville, Leslie 62 majority.

LEXINGTON, August 7.—The election passed off quietly until 7 o'clock. Just after closing the polls a negro fired a pistol and produced a panic among the negroes. Some fifty shots were fired, resulting in the wounding of several negroes. The disturbances were promptly suppressed by the State Guard, under orders of the civil authorities.

A disturbance occurred at Frankfort. Billy Gilmore was killed. A slight disturbance also at Paris. The result in the county is a Radical majority of 100 in a vote of 5,550.

CHICAGO, August 7.—Midnight.—Up to this hour, the only returns received from the Kentucky election are from scattering precincts and towns where the result indicates nothing, though they all show a Democratic majority.

BOWLING GREEN, August 7.—The precincts give the following vote: Leslie, 718; Harlan, 750.

Guthrie—Leslie, 53; Harlan, 72; Allensville, Leslie, 141; Harlan, 76; Paducah, Democrats, 490; Republicans, 508; Hopkinsville, Harlan 720; Leslie, 402; Elizabethtown—two districts give Leslie 63 majority; Midway, Leslie, 250; Harlan, 172; Christiansburg, Leslie, 21; Harlan, 68; Jacksonville, Leslie, 72; Harlan, 19; Eminence, Leslie, 147; Harlan, 78; Madisonville, Leslie's majority, 17; majority in the abounty, about 700; Cynthiana, Leslie, 171; Harlan, 138; Danville, majority for Leslie in the county, 88; Lowesport, Leslie, 249; Harlan, 102; Cloverport, Democratic ticket, 230; Republican State ticket, 210; Russellville, majority for State Democratic ticket, 41; Louisville, total city vote, 12,949—fully an average vote. Of this Leslie received 3,298 and Harlan, 6,651. Leslie's majority in the city is 3,721. Harlan ahead of his ticket. All Democratic candidates are elected. Returns generally show Republican gains. Republicans conceded Leslie's election by 20,000. Democratic majority in the State is variously estimated here at from 20,000 to 30,000, a falling off from Seymour's election of 26,000 to 30,000, and 40,000 or 50,000 from the last Gubernatorial election.

The Tammany Frauds.

NEW YORK, August 7.—The projected mass meeting for examination of frauds on the city treasury will not for some unexplained reason be held to-morrow. Opdyke, Vice-President of the Chamber of Commerce, will answer the letter of Mayor and Controller to-morrow, giving his ideas in regard to the manner in which the accounts of the city and county should be examined and discussed in the interest of the public. Assistant District Attorney Sullivan in an address to-night defended the city government from charges of financial fraud and corruption. He said the Republican party when in power in the State paved the way for and perpetrated frauds, and that the city authorities were ready to meet their accusers face to face.

Base Ball.

PHILADELPHIA, August 7.—Red Stockings of Boston defeated Athletics by a score of 23 to 7.

WASHINGTON CITY.

Bontwell and Pleasanton.

WASHINGTON, August 7.—The President, accompanied by General Porter, returned to Washington this evening. A Cabinet meeting will be held to-morrow and the President will return to Long Branch to-morrow night. Nothing new was made known to-day relative to the Commissioner of Internal Revenue except a report that the time of his resignation of the office was left to himself at the last interview with the President, Tuesday last. Prominent gentlemen express surprise that the question has not yet been definitely settled, as they were led to believe last week that before now the President would have appointed a successor to Pleasanton in the person of J. W. Douglass, First Deputy Commissioner.

BY ATLANTIC CABLE.

French Affairs.

VERSAILLES, August 7.—The first Court-martial for trial of Communists opened to-day. The indictments were read. Some of the prisoners treated the proceeding with levity, whereupon the Court prohibited them from communicating with each other. Examinations will begin to-morrow.

Affairs in Dublin.

DUBLIN, August 7.—The Royal visitors left the city to-day. Crowds lined the streets through which they passed but not a cheer was raised. The people preserved dead silence, broken only by a few hisses. The conduct of the Prince at Phœnix Park yesterday, which was denounced as brutal, has embittered the population. Newspapers demand an investigation.

The Amnesty Committee has issued an address. It declines that a meeting to make a holiday in honor of Royalty would have been allowed, but because the people had met to plead for captives they were stricken down and the sward reddened with blood.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, August 7.—Passed west at Ogden to-day, L. M. Mann, Portland.

John McKee, who arrived from Portland on the *Oriflamme* Sunday night, got into a conflict with a party of Italians and was badly stabbed. He received three knife wounds in the back and on the head. A piece of blade two inches long was extracted from his head. An Italian states that McKee commenced abusing them, calling them names, "d—d Italians," etc., and that he kicked one of them, when they then attacked him.

The Democratic nominating Convention last night made no nominations, but adopted a resolution endorsing the Democratic State Convention. The platform favors abolishing the present system of street improvements as an outrage on tax-payers, and favors increasing the number of members of the Board of Supervisors to eighteen, of which six should be elected by the city and county at large as a means of guarding against corrupt rings. Also, that every candidate for Legislative nomination be required to pledge to the Convention that he is not under promise or obligation, either expressed or implied, to vote for or support any particular man for the United States Senate.

The board of Supervisors adopted a resolution that all harbor dues hitherto collected under protest be declared forfeited, and directing the Harbor Master to pay them over to the City Treasurer.

Mary Harne, widow of the street car driver killed at the Mission three weeks since, by the San Jose Railroad locomotive, sues the Southern Pacific Railroad for $2,000 damages, alleging negligence of the company's employes.

POLITICAL NOTES.

Some figures in, regard to the Kentucky election are given in the dispatches to day. Nobody expected that Kentucky would go Republican; but the great reduction of the Democratic majority is a striking fact. Another pull like this and even Kentucky becomes a Republican State.

The Brooklyn *Union* says: Gov. Hoffman may as well begin packing up his books and papers preparatory to his new departure. There may be "pippins to come" for him, but they will come no longer in the shape of Irish votes. Never before was engineer so neatly hoist by his own petard."

Years ago, Senator Willard Warner of Alabama, was left a meager patrimony of $2,000—one half of which was represented by a bright colored boy—the rest in money. Those were days not much favoring abolition, but when the boy appealed to Mr. Warner not to sell him, he made answer: "I have no more right to sell you than you to sell me," and straightway he gave the boy his freedom.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Dispatches from New York.

NEW YORK, Aug. 8.—At a meeting of the Boiler-makers' Association last night, the present boiler-inspection system was denounced and a change demanded. The Staten Island ferry company was charged with being close and mean, and the disaster due to the continued use of an old boiler. One of the speakers said all the boiler inspectors of New York are ex-policemen, and only one of the United States inspectors is a practical boiler maker.

The *Herald* publishes an interview had by its correspondent with Secretary Fish. The Secretary said he had no idea who the arbitrators in the Washington Treaty would be. The Commission under the treaty would probably sit a long time. The action of the Commission will probably be guided by that of the Southern Claims Commission, as the latter would furnish precedents. Not if claims for damage done to property by Federal power during the war be allowed other claims cannot avoid following the precedent. With regard to damages sustained by British subjects, courts of arbitration would be composed of men who would command public confidence.

He thinks the Government should not be criticized for its action on the Cuban question. Cubans get hold of adventurous Englishmen, Americans and Irishmen, to do their fighting and are not themselves struggling for nationality.

He declared he has not signified any intention of resigning.

A Washington special says it is reported that Charles Francis Adams has declined the appointment of arbitrator in the Geneva conference. He will probably be succeeded by Richard A. Donnan.

A Ward meeting held last night to denounce alleged frauds in the city government was broken up in confusion. An resolution denouncing the Mayor was declared carried, amid dissenting shouts, disorder and confusion.

National Labor Conference.

ST. LOUIS, August 8.—The National Labor Congress met this morning. Committee on Credentials reported delegates from Middle, Western and Southern States, but none from New England.

BY ATLANTIC CABLE.

Elections in the Conquered Territory.

PARIS, August 8.—At the second Strasbourg municipal election half the voters abstained. Only 817 voted out of a population of 100,000. Mulhouse and other conquered towns imitate it.

Sir John Gray calls the attention of the House of Commons to the Dublin riots.

Letter from the Pope.

NEW YORK, August 8.—The Pope addressed the following letter to Cardinal Prussi, Bishop of Rome:

"When God in His impenetrable designs permitted that the capital of Italy should be wrongfully occupied, the usurper proclaimed Rome was necessary to the integrity of Italy and perfection of all other parts,—as if there were not to this day two small provinces which continue under their former government, and which, I hope, will ever remain so. But the purpose of these revolutionists was not only to usurp Rome, but was and is still to destroy Catholicism. In order to accomplish this the ruin of an indestructible edifice, all the ungodly, all free-thinkers and sectarians of the world have lent their aid by sending each their contingent to this metropolis. All these little battalions are united into one body, and their intention is to insult and break the images of the Virgin Mary and the Saints. Their aim is to vilify and hunt down the ministers of the sanctuary, desecrate churches, multiply houses of prostitution, assail the ears of the godly by their sacrilegious clamor, and infuse into hearts and minds the venom of impiety. By the reading of certain journals, it is to be impudently hypocritical and sacrilegious, this infernal phalanx has put it into its head to extirpate in Rome what it calls religious fanaticism. As was said by an Italian philosopher of unpleasant memory, who died a sudden death a few years ago, 'after having taken root in Rome it design to transform the center of christianity into a city of infidels, or to make Rome the mistress of a religion of toleration.' Such those desire to make her who have cast the thought in the shade, but the present generation before their eyes, and who imagine that God allows all things to pass without occupying Himself with our acts."

A *Herald* correspondent writing from Rome says the Prussian occupation of France is every day rendering the situation more unpleasant. The strife and bloodshed between a small number of German and French people for theft and murders of private soldiers, which have taken place, render the Prussians more harsh and embittered in feeling. The French government are said to have sent word to Bismarck and Moltke to this effect, and dwelt upon the impossibility of restraining a population unduly oppressed. Some of the Prussian commanders drink to excess and encourage the conduct of men who use firearms on small provocation, and that if these troubles continue, the settlement of the war indemnity question would be difficult.

Miscellaneous Eastern News.

NEW YORK, August 8.—The first car load of goods shipped through New York without appraisement went forward yesterday by the Merchant's Dispatch Transportation Co. for San Francisco.

The name of Hon. John S. Watts of Santa Fe is mentioned for Governor of New Mexico.

WASHINGTON, August 8.—Manufacturers of compound liquors failing to bring about a reduction of the tax of $2 per doz. quart bottles, are now compounding them so as to contain over 50 per cent. proof spirits, and consequently subject only to a tax on distilled spirits, which is fifty cents a gallon.

It is expected there will be little effort made to secure the endorsement of government officials favorable to a reduction of Internal Revenue taxes preparatory to action of Congress on the subject. It is thought, however, that a uniform rate of tax will be placed on tobacco. This is the only article now taxed according to quality instead of quantity. Tax upon whisky of fifty cents per gallon will not probably be relieved, but the government favors the abolition of special taxes upon distillers, such as the per diem tax upon the working capacity of stills and other petty taxes that are so annoying to the distiller and contribute but little revenue to the government, as the cost of collection exceeds the revenue obtained.

The President at noon to-day formally suspended Pleasanton as Commissioner of Internal Revenue and appointed deputy Commissioner J. W. Douglass in his place.

The Revolt in Algiers.

PARIS, Aug. 8.—A council of war was held at Versailles to-day concerning Algeria. Thiers and MacMahon were present. Energetic measures were resolved upon.

The *Gaulois* states that Jules Simon is an internationalist.

Miscellaneous.

LONDON, Aug. 8.—It is again rumored that Napoleon is going to Switzerland.

The Directors of the Lower California Company propose to receive all Communists as colonists. Thiers promised to lay the proposal before the Assembly.

Thiers and the committee have agreed respecting Departmental law. The war budget is increased 271,000,000 francs.

Advices from Algiers say the insurrection is routed, but war continues in the Province of Constantine. Numbers of forests have been burnt.

It is reported that after a week Prussia will evacuate Oise and Seine and the two Departments immediately contiguous.

CALIFORNIA.

The Italian Procession.

SAN FRANCISCO, Aug. 8.—In the case of the United States against 13,347 bags sugar, imported by the San Francisco and Pacific Sugar Refineries, and seized by Collector Miller for confiscation, the Secretary of the Treasury has granted the petition for the return of the property to the claimants, owing to the large amount at issue. Strenuous efforts have been made to secure condemnation, which would have yielded a farthing for custom house officials.

Meadow Valley reports $193,000 receipts for July.

The case of Michael Ernster, of Alameda county, indicted and committed to jail on charge of murder of Frank Lavin, whose son he caught stealing the chickens, was heard on habeas corpus by Judge Wallace, of the Supreme Court, and the motion to admit to bail taken under advisement.

The wife of J. G. Kellogg, formerly of Kellogg & Howston passengers, was killed by jumping from a carriage as the horses were running away, at Oswego, New York, July 28.

The ship *John Bright* ran hard aground on the mud flats off Goat Island while being towed over from Oak land wharf, where she had been loading wheat for Liverpool. It is supposed she will be got off all right.

There is very large attendance at the pavilion this evening, though everything is in confusion and not more than half the goods arranged. The available space has been fully doubled by the addition of wings on the sides, and every foot will be occupied. The arrangement of upwards of 200 flags of all nations, completely draping the arched ceiling of the main hall, is a great improvement, producing a peculiarly light and pleasing effect.

It is believed that the tax payers' ticket will be completed to-morrow or Thursday night.

The Democratic Municipal Nominating Convention is having a stormy time to-night. There is a heavy pressure being brought to bear to force Kenny, Supervisor from the Third Ward, who was nominated Friday night for Fire Commissioner, to withdraw, on the ground that with the two offices he would have too good a thing and that it does not give other deserving Democrats a fair chance in the distribution. A motion to reconsider this nomination has just been voted down.

German Republicans are holding quite a large meeting in Platt's Hall this evening.

The opera of "Faust" drew a full house at the Metropolitan this evening.

INTERIOR CALIFORNIA DISPATCHES.

LOS ANGELES, August 8.—Wheat and barley crops in the lower parts of this county are doing splendidly considering the dry season.

A consignment of 1,186 bars of base bullion for San Francisco, from Cerro Gordo, of which 916 bars are from the Union Smelting Works, has just been received. The total weight is ninety-five thousand pounds. Some of the bars contain a large per centage of silver.

George Turness of Wickenburg, Arizona, died in the stage last week's trip, between Wickenburg and La Paz, while on his way to California. The remains were buried at Cullen & Hawley's station.

WATSONVILLE, August 8.—The Republican Joint Senatorial Convention met here to-day and nominated Dr. Flint of Hollister, for Senator to represent Santa Clara and Monterey county.

SANTA ROSA, August 8.—The Democratic meeting in Arcadia park is probably the largest gathering ever assembled in this county. Speeches were made by Gen. Haight, Joe Hamilton, J. D. Hambleton, Elisha E. Cook, Barclay, Henley and R. L. Woodworth. Good order prevailed.

CALAVERAS, Big Trees, August 8.—A Republican meeting was held at Murphy's last night and addressed by Hon. T. G. Phelps and Dyer and King, candidates for Senate and Assembly from this county.

SAN DIEGO, August 8.—The County Republican Convention met at Fowie yesterday and nominated a full ticket. A. Heaton was recommended for joint Senator to represent San Diego and San Bernardino counties.

Weather clear and pleasant.

VISALIA, August 8.—A murder was committed about thirty miles east of here last night. John Fanley, an old man aged 60, was awakened about midnight by unknown persons wanting to speak to him in his yard. Upon his opening the door, two men were seen with whom he talked a few minutes, when two shots in quick succession were heard and the old man fell a corpse. Two women in the house think they can identify the murderers. Rumor says circumstantial evidence is strong against certain parties. He had exposted assassination and always went armed. He had a rifle in his hand at the time of his death, but the murderers were too quick for him. Officers are gone from here to investigate and make arrests.

OROVILLE, August 8.—Booth spoke here to 2,000 people. Buildings were illuminated, bonfires were built, and great enthusiasm manifested.

UTAH

OPHIR, August 8.—While John L. A. Blanco, Justice of the Peace of this place, was returning on horseback this morning from Salt Lake, he was attacked and beaten to insensibility by unknown parties. He was found and brought to Ophir early this morning. He is still insensible. The outrage is believed to be the work of Mormon Ku Klux.

OREGON.

Jacob Conser, of the Jefferson Mills, has contracted for 25,000 bushels new wheat at one dollar per bushel.

Only a few of the Umatilla Indians indicate a willingness to abandon the Reservation. All the better class want to stay.

Some people at Salem must be rather green. The *Statesman* finds it necessary to warn them against being imposed upon by the "cork game."

Work will be commenced at once on the new M. E. Church at Salem. The original plan has been modified so as to provide for a building not costing more than $30,000.

The *Statesman* gives notice that Geo. W. Snyder has become interested in its publication, and will have charge of its mechanical department. Mr. Snyder has recently arrived from the East.

A gentleman from Pendleton informs the Walla Walla *Union* that Umatilla county has received large accessions to her population this summer, and that a great many have settled on Willow creek and Butter creek. He also says that there are a great many who have come into the county in hopes that the Indian reservation will be abandoned, and that they may then procure a claim.

THE TERRITORIES.

Market price for wheat at Walla Walla is 60 cents per bushel. Farmers decline to sell.

The Supreme Judges of Idaho Territory have decided that homestead exemptions under the bankrupt law apply only to States. They therefore refuse to allow the benefit to citizens of that Territory.

T. G. Murphy, late editor of a Seattle paper, has opened a tailor shop at Port Townsend. Murphy failed to "fit" the understandings of the people, and now tries his hand at their bodies. An occupation that he is doubtless better 'suited' for. This from the Walla Walla *Statesman*.

The President and other officers of the Walla Walla Railroad, as we learn from the *Statesman*, are understood to have their plans all matured, but are not yet ready to submit them to the public. They contemplate a guarantee on the part of the county on the Company's bonds to the amount of $300,000, to be secured by a first mortgage on the road. This is the principal feature, and the one that most interests the public.

The New York *Evening Mail* says: "The volume of fresh immigration has been very greatly diminished, while the exodus from Germany to the New World has assumed new and notable proportions. German sobriety, industry, thorough honesty and straightforwardness are elements that we can stand a good deal of, while there are other advantages in connection with the growth of our young Germany in America that are equally obvious."

The *Nation* gives this as a possible result of the present social agitation: "Before long man will gaze at woman with the same emotions with which he gazes at a landscape or a field of wheat; while woman will look on a man as she looks on a grain elevator or a locomotive."

CURRENT NOTES.

The whole story about the Jeff. Davis elopement turns out a question of morality between Davis and the conductor of the sleeping car. The conductor stands by his statements.

Secretary Boutwell declines to pay Kentucky's claim for $525,000 for troops furnished, in time of the rebellion. This is well, for it cost the country many millions to compel that State to stay in the Union.

Expenses are still being reduced. The number of assistant assessors of the internal revenue service in Massachusetts, Rhode Island and Connecticut on July 1, 1870, was 154. The number now employed is 93.

The Solicitor of the Treasury is about to notify District Attorneys to submit to the Department their reports of litigation for the fiscal year ending June 30, 1871. These reports must by law be presented by October next. It is expected that they will show an increase in the proportion of collections to the amount in suit.

Horace Greeley thus explains his frequent use of a diminutive, but strikingly forcible word of three letters: "We believe in doing right plain spanking. He who, having been wantonly calumniated, takes four lines to convey the impression that his accuser is a slanderer and a liar, seems to us unduly regardless of the brevity of life and the urgency of [illegible] work."

When Hokaday was nominated for Governor of New York, Mr. Lee [illegible] at his portrait, handsomely framed in rosewood, to various bar rooms, where it was hung up. When it was known that the Governor had protected the Orangemen, the dirty rabble rushed round to all the saloons and smashed the picture, and in a few hours hundreds of the pieces were trampled under foot by the infuriated rowdies.

The *Irish World* of New York has a picture of the Hibernian Orange lists which conveys a curious idea of the Water Rats: shows a body of soldiers pouring a volley into a group of magnificently dressed women with immense chignons, and lovely little girls with curly locks. Near by are a number of enraged policemen assisting fashionably attired ladies in of the most innocent aspect. No wonder the *Irish World* is thrown into spasms.

The Lebanon (Penn.) *Courier* says, that the Democratic party, at the present moment reminds one of a wasp—very, nearly in two pieces, with the large piece behind.

WEDNESDAY MORNING, AUGUST 9, 1871.

The Difference.

The two kinds of Democracy are thus clearly set forth and distinguished from each other by the Mobile *Register*, a Democratic paper conducted by Col. Forsyth, late of the Confederate army and an admitted authority:

We are clearly of the opinion that the boldest fight we can make on the recognized principles of the party is the very best one we can make. . . . There are others, again, just as anxious for the Democratic success as we are, who desire to make a *stealthy Indian fight, in the hope of shedding moderate Republican recruits into our ranks.*

This is pretty well delivered. But it shows the essential dishonesty of the movement by which it was hoped to lift the party out of its slough of despond. It is now pretended that great measures which the party has contended against are to be accepted as "accomplished facts." Yet it has been well said that in 1868, when the hopes of the opposition ran high, it was solemnly proclaimed in the national convention of the party that all these measures were unconstitutional, and ought to be overturned if not repealed. And to give positive proof of the faith that was in it, this national convention placed on its ticket for the second office within its gift the man who, a few days before, had promised that if elected to office he would use the military power of the republic to overturn them. It was that threat that won for him the nomination; it was that deliberate avowal that procured him over two million votes four months afterwards. Here we had the open and undisguised sentiments and platform of the Democratic party. It had at least one merit, that of sincerity, and if Mr. Seymour and Mr. Blair had been elected we have no doubt that the crimson pickings would have been kept to the letter. The masses of the Democracy firmly believed, and to-day believe, all that their leaders have educated them into believing—that the "struggle" is to the Constitution and perpetuation of power; that the party should be remanded to the former condition, if not of bondage, at least political nonentity. This is the reason why the message of the party is not to accept the "situation," and why nine-tenths of the party papers in Oregon denounce it.

Fitness of Evil.

The New York *Commercial Advertiser* presents some figures showing the effect of the Pacific Railway upon the trade by steamers with the Pacific ocean. The following steamers for the first six months in each year, have done the following amounts of business: 1869, value of goods brought to San Francisco, $23,457,000; 1869, value of goods, $23,530,000; 1870, value of goods, $6,109,000; 1871, value of goods, $4,721,000. The falling off in sailing vessels by way of Cape Horn is equally remarkable. The sailing vessels brought into San Francisco, during the first half of 1871, 160,209 tons of merchandise, against 80,000 tons in 1870, and 150,000 tons in 1869. The freight paid on importations by steamer and sail vessels was $3,280,000 in 1869; $3,094,000 in 1870; $1,320,000 in 1871. This proves that a very large proportion of transportation has been diverted from sea to land. The paper above named makes this inquiry: When the two additional lines of railway to the Pacific shall be completed, will they not have disposed of any further necessity for exploring a canal route at the Isthmus?

The New York *Times* of July 26th presents Tammany's secret account with another party, which shows how the Democratic thieves of New York City have swindled the taxpayers out of further immense sums. This exposure relates chiefly to the account with Keyser & Co., plumbers, who were paid during two years, for plumbing and gas fitting in the armories and drill-rooms, the investigations sum of $1,231,817 17. That is, the accounts show that they were paid this sum, but beyond question three-fourths of it went into the pockets of the ring. Already the *Times* has footed up frauds amounting to about $10,000,000, and the ring has not yet been [illegible] or even [illegible] the accountancy of a single item contained in the infamous exposure. This is the party of "honesty" and "economy," that wants to control the Government of the United States.

The Chicago *Republican* does not sympathize with those journals which suffer unspeakable misery on account of the President's absence from Washington. It says: "that it is simply absurd to censure the officers of the government for seeking at the seaside a few weeks' respite from the torrid heat and midsummer malaria of Washington. At this season there is or ought to be little urgent business beyond ordinary routine in any of the departments, and if the President and his chief assistants are able to escape for a while from the tormenting assaults of office-seekers, and the persistent boring of claim agents and claim owners, the country will not be greatly grieved. The Democratic journals may as well save their indignation for a more important occasion."

A real estate publication of San Francisco, says: "Individuals seem to point to a radical change in the State Government. The entire harmony and enthusiasm in the Republican ranks, and the wrangling and apathy in the Democratic camp, portend success for the former, and consequent defeat of the latter. The Taxpayers' Union will nominate a full ticket for municipal officers, which will certainly be elected."

The population of London (3,833,092) is greater than that of the eleven largest cities of the United States, taken together. To illustrate more fully, the aggregate population of the cities of New York, Philadelphia, Brooklyn, St. Louis, Chicago, Boston, Baltimore, Cincinnati, New Orleans, San Francisco and Buffalo, is but 3,828,575; showing that London is 53,160 in excess of them all.

There is a plentiful lack of harmony between the *Herald* and the other organs of its party in this State. The *Herald* wants a funeral, and is doing all it can to get the corpse ready in the shape of "dead issues." But the other organs refuse to let the "issues" be buried, on the plea that they are not dead, but at worst only in a syncope.

Garibaldi has said at least one good thing. He remarked lately that "a fanatical thirst for supremacy is the main source of the misfortunes of France now, as it has always been." This observation has as much truth as epigrammatic point.

The most ancient books are the Pentateuch of Moses, and the poems of Homer and Hesiod. The first printed books were printed on one side only, the leaves being pasted back to back. During the reign of Edward VI., 1552, books of astronomy and geometry were were ordered to be burned, as being infected with magic.—*Oliver Optic's Magazine.*

The Railroad as a Civilizer.

On this topic the Washington *Chronicle* has an article which is so admirable that we quote it entire. The essential point in civilization, says that paper, is to bring man in contact with man, to multiply the relations between individuals, to break down the middle walls of prejudice, and to bring about a community of feeling and interest where discord and conflicts have hitherto ruled. In savage nations the centrifugal forces of society overpower the centripetal; the individual refuses to unite with the social element, except at those few points which are absolutely essential to the lowest forms of association. Society is confined to its lowest rudimentary functions, and men remain children in understanding, with an organization but little more elaborate than that of a colony of beavers.

In this disorganized state man instead of assuming his imperial mastery over the powers of nature sinks before them. It is only when men work harmoniously together, when mind articulates with mind in an intelligent programme of action, that progress is inaugurated and the higher purposes of human existence on earth begin to be realized. Hence, all those influences which have kept men asunder, are so many powers of friction resisting the great forward movement of civilization.

Asiatic history has shown that the social process, after having attained a certain stage of organizations, crystallizes into flexible forms utterly inconsistent with further progress. In Eastern and Western Asia, in China, India, and Palestine, the social order subsisting in the days of Abraham may still be studied in illustration of the historic facts of the Old and New Testaments. Men have separated into castes with insurmountable barriers of unsocial separation between them. This state of society subsists with remarkable permanence from age to age, and if it were not now battered to pieces by the aggressive waves of western civilization, would continue to subsist for countless ages to come. But those old Shemitic nationalities are showing symptoms of the dry rot and are crumbling to pieces.

The most potent and practicable principle of human progress is found in the multiplication of the means of intercommunication. Writing, printing, telegraphing, mark three great eras in mental communication, but parallel and underlying these is the increase of facilities of transportation and travel. The wagon gives way to the stage-coach, and the mud road becomes macadamized. The canal affords still greater facilities for the transmission of freight, but it is at length superseded by the railroad. What civilized State is now constructing canals?

The railroad, one of the latest born of the children of civilization, has now become its pioneer. Instead of awaiting the slow accumulation of capital necessary to its construction, it develops in advance its own resources. Projecting itself across the great central mountain areas of our continent, it has united the Pacific coast colony of American civilization with the parent mass. It has now become an essential preliminary to the rapid settlement of the direst wilderness. Our fifty-five thousand miles of completed lines, with our ten per cent. annual additions, will soon permeate our whole territory. The railroad is assuming cheaper and more flexible forms in the narrow gauge. It is now branching off into smaller neighborhoods. The great trunk line will hereafter absorb a smaller proportion of its capital. By the year 1890 we will have doubled our present number of completed miles of road, if not long before. But who knows what new impulse is soon to be given to progress which will leave the railroad as far astern as it has left the stage coach.

General Sherman's Views.

A few days ago we gave Gen. Sherman's views as to the Presidential election of next year, and the candidacy of General Grant for re-election. We quote further from what he said on the occasion alluded to. The correspondent asked him if Hancock could be tempted to run as the Democratic candidate, and received this reply:

"Well, he may be tempted to run. Hancock, you know, dislikes Grant personally, and it would be an immense triumph for him to get where he could rank him." Grant never showed any dislike to Hancock. He went more than half way to conciliate him more than a year ago; but there is a clique in Washington, a social clique, which manipulates Hancock and keeps up the feud. Women have more to do with it than men."

"What do you think of the Ku Klux bill?"

"Good bill, sir! It has already stopped a good many outrages. The fact that the President has power to send troops into any State to quell disturbances, *in itself* is enough to frighten the disturbers of the public peace.

"But John Quincy Adams says the bill is an absolute surrender of the principle of free government—placing in the President's hands the power through that and the election bill, to raise himself to the empire."

"All stuff! How ridiculous to talk about a man raising himself to the empire in this country! Such a man, after declaring for the empire, might hold a regiment of soldiers in the White House yard for just one day, and then the people would put him in the Potomac river."

"Let some crazy President declare himself Emperor, and intrench himself in the White House yard with the whole regular army—about 18,000 fighting men—around him, and how long would it take Governors Hoffman, Jewett, Randolph, Geary and Claflin, and the rest, to surround and capture the whole concern? No, sir," said the general, indignantly; "when a President declares *imperialism*, every governor will have to be in the mess too, and when that shall be the case, the country will be too rotten to be worth preserving."

"Adams calls the Ku Klux bill Grant's negro policy." I remarked.

"All humbug again. It is simply a law making it possible to arrest and disperse unlawful gangs of rascals, black or white, in any of the southern States—to imprison them, and try and punish them. Grant don't have any negro, nor German, nor Irish policy. His policy is to protect all citizens, remain at peace, economize, and try and pay the debt. All this stuff and talk about imperialism in America, is a libel on the good sense of the people, and Adams ought to have too much good sense to talk such foolishness."

All Southern Democrats have not yet learned the tricks of cloaking wicked designs with lying phrase. The Mobile *Register*, in an indignant article crying out against the paltry deception of the Northern leaders of the Democracy, says:

Just look at it. You departurists are dead against the amendments. So are we. You say you won't oppose them by violence. So we do. You hold that they are also far actual parts of the constitution as to be obeyed for the present. So do we. Now, where do we differ? In this, that neither now nor hereafter, before or after the election, will we cease to believe and to declare that these amendments are the joint products of force and fraud, to be unceasingly warred upon, and extirpated by the direct attack, and not by the palliative of "construction," while you departurists propose to hush up the whole matter, or if you speak it is only to make the radicals believe that acquiescence in them, as parts of the constitution, is for all time. Now either the "departure" cheats the radicals or it cheats the friends of a restored, purified constitution, and we really have not yet made up our mind which. The "departure" has all the car marks of a dodge. It is not straightforward; it requires too much explanation; it is forked in tongue, and has none of the yea and nay simplicity of a direct and truthful proposition. We cling to the belief that when the Democratic party assembles in its integrity and its wisdom in the national convention, it will not trust its great fortunes to such a rickety dug-out as this.

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LUMP ABOUT SWELLING grew out, so that I could not raise my head to my head!

Since last spring I have been taking your "Oak Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BODY GROWTH HAS ENTIRELY DISAPPEARED and I see my limbs and am far better than I have been for years.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use; requires no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, Pittsburg, Pa., writes Nov. 10, '70: "I have no hesitation in recommending the 'Averill Chemical Paints' to those who regard economy and durability. It would be impossible to get better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

COSMOPOLITAN HOTEL.

CHANGE OF PROPRIETORSHIP.

H. H. PEARSON,

Late of the Russ House,

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Boarders by the week or month as per contract. The Tables will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. MR. PEARSON announces proprietorship this day, August 1st.

CATTLE RECOVERED—A TROPHY.—It will [illegible] remembered that not long since a report ca[illegible] here to the effect that Col. It is nailed to a board on which is written this inscription: "Scalp—of the celebrated Indian Chief Hoo-doo-ti-cus, which was lifted by Col. Joseph Teal at the battle of the Forks of Owyhee, fought Aug. —, 1871." This tells all we can tell of the story, save that the scalp appears, to our unsophisticated eye, to have been once the property of a bloodthirsan of the Moose-a-moos tribe, and to have been worn more for use than ornament.

RAILROAD WORK.—A Eugene paper, quoted in the *Bulletin*, under date of August 5th, says: "The railroad work goes along well above here. All things taken into consideration. They struck a bed of adobe about seven miles south of here which defied all attempts to plow it. Hallet also "give us some more teams; if one team can't pull that plow through ten cars, and if that don't do we'll put on twenty, but she'd got to go." And go she did. CATTLE RECOVERED—A TROPHY.—It will be remembered that not long since a report came here to the effect that Col. Joseph Teal at the battle of the Forks of Owyhee, fought Aug. —, 1871." This tells all we can tell of the story, save that the scalp appears, to our uneducated eye, to have been once the property of a klootchman of the Molele-mons tribe, and to have been worn more for use than ornament.

RAILROAD WORK.—A Eugene correspondent of the *Bulletin*, under date of August 5th, says: "The railroad work goes along well above here, all things taken into consideration. They struck a bed of adobe about seven miles south of here which defied all attempts to plow it. Hallet said, 'give me some more teams; if one team can't pull that plow through ten cuts, and if that don't do we'll put on twenty, but *she'd get to go.*'" And go she did. Camps of men are strung out along the line for thirty miles, the furthest south being that of John O'Connor & Co., who have a subcontract for three and a half miles in Pass Creek. The brothers Wheeler have finished one, sub contract near this city, and are waiting for the engineers to locate more line so they can take another. Harrison and Watson have nearly finished one section of two miles, near this city, most all rock work. C. W. Pierson has a gang at work near Campbell Chrisman's, and Richard Marion finished a piece of seven stations yesterday near Bowie's, on the stage road. The force of Mr. Hallet are distributed in between the sub-contractors as follows: One hundred and eighteen Chinese under Michael Connelly, in the rock bluff known as McVay's Point; sixty white laborers under Neil McNeil, some two miles further on. This party are known as the "Bowld Sixty-ninth," and are making a great fill in a ravine. William Bidewald, the "war horse of Scott Bar," has some eighty men near the widow Matlock's working in the adobe, where they how the mud out with an adze, and Charles Howe has a force of thirty cutting off the point of the hill somewhere above Rimwald."

ACCIDENTAL DEATH.—We learn that a man named Clark was found Monday evening near the Harrisburg Railroad bridge, with his skull broken and in a state of unconsciousness. He died shortly after being brought to the hotel. He had been seen to leave town, apparently intoxicated and riding carelessly, and the supposition is that his horse either fell upon or threw him off. The Coroner's verdict was accidental death, but the real cause was evidently whisky.

M. E. CONFERENCE.—The nineteenth Annual Conference of the M. E. Church will commence its sittings to-day at the Taylor street church, at 9 o'clock A. M. Bishop E. Janes will preside, and, beside a full representation from the Conference churches, there will be in attendance a considerable number of distinguished visitors from other Conferences. The session is expected to be one of the most interesting and important ever held in Oregon.

ROADS.—Complaint is made by teamsters on the county road, about the condition of Water street, between Clay and Mill streets. The roads never were in better condition, but this street for two blocks is almost impassible, and it is the only outlet the county road. The Supervisor of road district No. 15 informs us that that the Salem or Boon Ferry, new road, is now in complete order for travel to the county line, though not quite finished.

WORK SUSPENDED.—There has been but little work going on at the Custom-house in this city for several days, and yesterday there was none. The lack of stone is what's the matter. The contractors are unaccountably and, as it seems to us, inexcusably slow in furnishing stone.

NOT A FAIRPLAY TERM.—The County Court, Judge Hamilton, had one little item of business on Monday. Yesterday there was nothing to do, and the Court adjourned until ten o'clock this morning, when the Commissioners will meet for the transaction of county business.

STEAMERS TO SAIL.—The N. P. Co.'s steamship *John L. Stephens* will sail for San Francisco at 7 o'clock this evening.

Hutchinson, Kohl & Co.'s steamship *Constantine* will sail for San Francisco at 7 o'clock to-morrow (Thursday) evening.

NEW STEAMSHIP OFFICE.—Capt. Flanders, the agent of Hutchinson, Kohl & Co.'s steamship *Constantine*, has fitted up a neat little office in the wooden building on the river side corner of Front and O streets, where all business on account of the steamer will be transacted.

A LIVELY PILE DRIVER.—Every night this week the regular thud of the railroad pile driver, below the Boneyard, has been heard all night long. This thing of constructing a railroad by lamp-light is a specimen of rare enterprise, in this country.

TEMPLE OF HONOR.—D. A. Whitney, D. M. W. P., gives notice to the members of the Temple of Honor, that he will meet them at Multnomah Lodge room next Friday evening, to fully organize the Temple.

GERMAN PREACHING.—By request of our German citizens, Rev. C. H. Allerbach will preach in the German language to-night in the Lutheran Church, corner Fourth at Taylor streets, at eight o'clock. Seats free to all.

PROPOSALS INVITED.—The Council's Committee on Streets and Public Property are inviting proposals for the improvement of North Eighth and North Ninth streets, from Stark to G.

STEAMER FROM PUGET SOUND.—We learn that a telegram from Bellingham Bay yesterday, announced that the *California* would sail last evening for Portland, with a full cargo of stone.

MASONIC BUILDING ASSOCIATION.—At a meeting of the Directors of this Association, August 9th, an assessment of 25 per cent. was levied, payable on or before September 1st.

BUSINESS NOTICES.

IMPORTERS OF LIQUORS.—We call attention to the advertisement of I. S. Rosenbaum & Co., the well known tobacconists of this city. They have opened in connection with their wholesale tobacco department, the importation of liquors direct from manufacturers East and in Europe. Mr. Illistel, the partner's father, lives in France, who selects from that market, and A. S. Rosenbaum in New York.

TOBACCO SALE.—At ten o'clock this morning A. B. Richardson & Co. will have a trade and credit sale of tobacco at the auction room, corner of Front and Oak streets.

$10 PER MONTH.—To buy a sewing machine at the usual cash price and pay for it in monthly instalments of $10, with use of machine from first payment, is an opportunity never offered here before. Shanahan advertises to do this with the Grover & Baker. Go and see about it.

A NEW BOOK STORE.—The Salem *Statesman* says: "We learn from Mr. J. K. Gill that he has purchased a large stock of goods at the East, —books, stationery, musical instruments, etc., which are on the way and will arrive during the present month. He expects to go into business largely in the line at Portland, in company with Mr. Gov. Steel, present County Treasurer of Multnomah county. They will occupy the store in Ladd's building, adjoining the bank, until lately occupied by the National Bank. We predict from the energy and enterprise of these gentlemen, that they will soon build up an extensive business."

PERSONAL.

We acknowledge calls from Mr. Henry D. Cooke, son of Pitt. Cooke, and nephew of Jay Cooke, and Mr. A. M. Adams of New York, who are taking a look at the Pacific coast. They are strongly impressed in favor of Oregon as compared with California.

Dr. Tunnicliff of Michigan, who, with his family, has been "doing" Oregon and the Pacific coast generally, will leave by the O. & C. Railroad to-day, for home. He leaves with a favorable opinion of the State, after having taken time to examine into its general features and its actual and possible resources.

Senator Corbett has gone to the Umatilla reservation to be present at the Council with the Indians, which is now in progress.

Mr. C. B. Plummer, ("Yankee Plummer") the humorist and delineator of character, at whose comicalities so many of the people of Oregon have so often laughed, has arrived at this city, intending to look about over the valley for a place to "settle."

AMUSEMENTS.

ORO FINO THEATER.—The Nathan Juvenile Troupe having arrived by the *Constantine*, will open as per announcement at Ore Fino this evening. The opening piece is Bouclcault's comedy of Andy Blake, in which Pattie Marion will personate Andy. After this there will be a musical and terpsichorian melange by the brothers and sisters Nathan, the performance to conclude with Love's laughable burlesque of "Paddy in India."

HALL.—There will be a dancing party at the Washington Guard's armory to-morrow evening. The committee of arrangements consists of Messrs. Campbell, Jeffries, Johnston, Mills, Zimmerman and Hill of the Washington Guard, and tickets may be obtained of either of them.

EXCURSION TO AURORA.—Next Sunday, Aug. 13, there will be another railroad excursion to Aurora, at the usual excursion price for fare. Tickets may be purchased at the Co.'s office or of the Tyrolean Alpine Glee Club, and will be good for any train of that day.

Buttonness and Indigestion.

These two complaints are more general at this season of the year than at almost any other. They are closely akin, for biliousness always involves an impaired digestion, and indigestion is necessarily an accompaniment of a disordered or torpid liver. Happy the man or woman who can boast of a stomach that has never felt the horrors of dyspepsia, and to whom that great secretive agent, the liver, has never given pain or trouble. Not one in a thousand can lay claim to entire immunity from irregularity in these organs. How, then, shall they be regulated? Not by powerful cathartics, alternated with ordinary stimulants, but by a medicinal invigorant, like Hostetter's Stomach Bitters, which combine in due proportion the tonic and the alterative principle. Wherever there is a church, a schoolhouse, and a general store, this famous medicine may be procured. No village merchant finds it prudent to be without it, for it is enquired for every day by every class. The workingman buys it because it increases his capacity for toil and is followed by no reaction. The effect of the salubrious roots, herbs, etc., of which it is composed, diffused through his system by the pure stimulant which form the basis of the Bitters, is most healthful and invigorating. The scholar, the merchant, and, in fact, all men, whose minds or bodies, or both, are in constant exercise will derive benefit from its use. To persons of sedentary habits it supplies, to some measure, that activity in the circulation which is obtained by physical exertion, and is the best known remedy for constipation.

Ask for Hostetter's Stomach Bitters, and do not be coaxed into purchasing any of the imitations and frauds sometimes offered in its stead.

WOMAN'S TRUE FRIEND!

MYERS' PATENT COMBINED

FLUTING AND SMOOTHING FLAT-IRON

Patented March, 1871.

THE MOST USEFUL INVENTION OF THE AGE!

THE ONLY PATENT FLUTING AND SMOOTHing Iron ever offered to the public, and pronounced by the Press perfection itself.

Adopted by all Housekeepers, on its own merits, as the Cheapest and most Perfect household article yet devised.

Advantages over all others—CHEAPNESS! SIMPLICITY! DURABILITY! Requires no labor to adjust it for Fluting or Rolling, as is the case with expensive crank machines; the Iron is heated in the ordinary manner as for plain Smoothing. When desiring to FLUTE or RUFFLE, draw back the Latch and it is ready for its work; the simple movement is all that is required. Its entire simplicity is one of its many merits.

It will not injure the finest fabric. It will not rust or destroy your clothes. It is a great saver of Time and Money. It is the only Iron with a "Rolling Motion." Its Fluting surfaces are of Polished Brass. No home can afford to be without one.

MYERS' COMBINED FLUTING AND SMOOTHING FLAT-IRONS have earned for themselves a popularity which has never been attained by any Fluting Machine. People go into ecstacies over the results accomplished by our Irons, and the longer they are used the more highly do they value them, and no wonder, when we consider that our Combined Fluting and Smoothing Flat-Irons, which are no trouble whatever to use, and which do plain ironing as well as Fluting and Rolling, costs only the very small sum of $4 75 each.

These Irons are for sale only by our Canvassing Agents.

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue the entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.

Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

NEWSPAPERARCHIVE®

A Summer Day.

Sunshine over the meadow lands,
Kissing the crimson clover,
And sunshine hanging the lily cups
That the yellow bee hums over,
And sunshine over the daisy hills
And over the dimpling river—
And I wished that the sun and the summer day
Might shine and last forever.

We walked down by the meadow path,
The broad highway forsaking,
For the quiet of that lovely spot
Seemed better for our love-making.
And I was silent and she was shy,
And we walked down through the clover,
But we thought it the sweetest summer day
That ever the sun rose over.

We heard the birds' lays, the waving grass
As they twittered to each other;
About the nests they had hidden away—
And the cool of the shade we walked that summer day
And we thought as we walked that summer day
Through the clover blooms together,
That at last the world was in perfect tune,
In the glad bright summer weather.

I cannot tell what I said to her,
As we walked kneedeep in clover;
But I know that the robins merrily sang
When I asked her to be my lover;
And down in my own heart love's own bird sang
A song that was gladder, sweeter,
And its echo lingers with the world's sweet hymn,
And made the day complete.

And when we came by the meadow path,
Our hearts sang over and over—
"Oh song, glad song of the bird and stream"
And for ever and ever
And you'll know not the words she said,
Or whether she spoke at all;
But for all we could say that sunshiny day
I count as the best of all.

Lotarik.

[From the Oregon Ghurch——

Gaming of whatever kind, whether intrinsically wrong or not, in its consequences is only evil. Money—anything valuable—obtained by chance, without a consideration, or just equivalent, tends over, and in all ways, to the more or less economical injury of the recipient. A dollar obtained at gaming tends to impair the moral sense in the same way, though, perhaps, in a less degree, as a dollar obtained by theft, or fraud. The experience of the worldis uniform upon this subject. In proportion as a people indulge in gambling, they become loafers, idlers, cheats, and knaves.

Of course we do not mean to be understood as saying, that all persons who gamble are dishonest—that the tendency of losing money at games of device, chance, or mixed skill and chance, does not, no doubt. All games vary, or persons who are not brought up to gambling. Many such persons are pecuniarily in a greater or less degree. From the evil effects of gaming by the lasting influence of the wholesome nurture and education which they received in their youth. But let a generation be brought up to gambling for a living, or as a pursuit, or pleasure, and its baneful effects will be manifest without qualification. Among such a people, honesty in the acquisition of wealth, or moderation, or morality in the use of it, is almost unknown.

We have been moved to make these trite remarks upon an old subject, on account of the sudden interest which has lately been given to lotteries, and kindred gambling schemes on this coast.

Now, of all the practices which the demon of gambling assumes, for the purpose of securing toleration in an anti-gaming community, that of lotteries is, to us, the most insidious; is the device of lotteries. Since the drowning of the Mercantile Library lottery, in San Francisco, this species of gambling, seldom or never appearing on all over the country, has begun to be called by various names, for the purpose of securing toleration in an anti-gaming community. But a lottery is a lottery, by whatever name it may be called. It is the most insidious in the device of lotteries, since the drowning of the Mercantile Library lottery, in San Francisco, this species of gambling, seldom or never appearing on all over the country, has begun to be called by various names, for the purpose of securing toleration in an anti-gaming community. But a lottery is a lottery, by whatever name it may be called. It is the most insidious in the device of lotteries, in that the poor man's money is taken by the many for the benefit of the few, by the use of means which are addressed to the cupidity of the many, and which promise to the many what can be given to the few only.

It is apparent that in the neighboring State of California, the people have already become much corrupted and demoralized on the subject of lotteries, and unless a wholesome public sentiment is aroused against it, the pestilence will soon spread over this State with impunity, although our laws expressly prohibit this form of gambling. Indeed lottery tickets were publicly purchased here from, or through agents passing between here and San Francisco. District Attorneys and grand juries, who had taken action to prosecute all offenders against the law, shut their eyes to this violation of it, and permit it to pass unquestioned. In the barrooms and other public places of this city, lotteries called by various names, are openly conducted for the sale or disposition of all sorts of articles of property, without let or hindrance. And so this spirit of gambling is being encouraged and developed amongst us, and the people encouraged in useless attempts at gaining involving labor, with the hope of being able to live in idleness, by means of some lucky hit, which every one hopes is in store for him.

For whatever purpose they are permitted, or conducted, lotteries are a tax on the community. They have, in times gone by, been used by the governments of various countries as a means of raising revenues, but being found to exert a mischievous influence upon the people, the practice has been abolished. To use the language of another, "The people are invited by them rather than compelled. They are diverted from permanent profit and patient thrift, by the hope of sudden and splendid gains; and as it is the professed principle of all these schemes to withhold a large part of the receipts, a necessary loss falls upon a class, which, of all in the community, can least afford to bear it." Some years ago the government of France suppressed lotteries, and in January of the next year $25,000,000 francs more were deposited in the Savings Bank of Paris alone, than in the same month of the preceding year. This fact alone demonstrates their evil tendency in a mere economic point of view.

Between the great majority of the community, and other modes of gaming, there is a barrier, in the circumstances of the place and society, which must be more or less openly encountered to indulge in them, and the loss of caste and credit, which surely follows the fact of being considered a gamester.

But lotteries, for lotteries for gaming secretly, and without personal contact with doubtful characters, or persons of evil repute. The purchaser of a ticket need not be known as such. Many apparently respectable and industrious people have kept themselves impoverished all their lives, in the pursuit of a fortune by the purchase of lottery tickets. Often, very often comparatively, the last words or message of a suicide, reveals the fact that successive delusions and disappointments, resulting in blighted hopes, beggary and a sinful death, have been the direct results of gaming in lotteries.

There is no excuse or justification for them. In all their effects and consequences they are only evil in both an economical and moral point of view. Let the law be enforced against them, before it is too late to stem or drive back the flood of evil which follows in their train.

A CONFESSION.—The *Daily Commercial*, published at Rome, Georgia, in an editorial, headed "Grant's Kuklux Business," speaks thus:

Under the authority of the force bill, a joint committee of the House and Senate is raised, who hold their sessions in the city of Washington, and summon before it men from every section of the South to give testimony, and for what? What use will be made of the voluminous testimony thus adduced? Can the Kuklux be dispersed by this testimony? We think not, unless they are made of the rottenest material that men are usually made of.

There are females in the South who ever denied the existence of the Kuklux. Through them the carpet-baggers, scallawags and negroes were taught to respect the only true sons of the South.

It was to prevent the Southern States from being "gagged," bound, and made to bear false witness that the Kuklux ever had an existence. It was to counteract the fiendish purposes of the Radical party that any part of the Southern people bound themselves together in an organization.

Mr. Robert Buchanan has, it is said, completed a second lyrical drama entitled, "The Teuton before Paris," in which he attempts a delineation of Prince Bismarck and his royal master. He also has a third drama in preparation, the hero of which will be the First Napoleon. These two plays, along with "Napoleon fallen," will perhaps make their appearance in one volume.

A. U. Richardson & Co. will offer to-morrow (Wednesday) at 10 o'clock A. M., at their auction rooms some choice brands of tobacco. Terms, $200, 30 days credit; over $200, 60 days credit.

Steamer *Constantine* arrived last night, with cargo of assorted merchandise. The manifest we publish below; the consignees were published in this morning's issue.

The *John L. Stephens* will sail to-morrow (Wednesday) evening at 7 o'clock. The *Constantine* will sail Thursday evening at 7 o'clock.

From the monthly report of the Department of Agriculture for July, we extract the following:

Winter wheat has been harvested. The ripening was fully a week earlier than usual. The States showing a comparatively low condition are as follows: New Hampshire, Vermont, Massachusetts, Connecticut, Virginia, and all other Southern States except Texas. All the Western States present comparatively high averages, except Kentucky, 95 per cent. below; and Indiana, 7 per cent. The California average is 17 per cent. below. The States presenting a higher average are Ohio, 4 per cent. above; Michigan, 8; Illinois, 7; Missouri, 8; Kansas, 5; Nebraska, 10; Oregon, 1 per cent. The winter wheat of Iowa and Wisconsin is in remarkably high condition, but to a very much less magnificent proportion, is the spring variety.

The returns concerning spring wheat are more unfavorable than those previous years. Only Maine, New Hampshire, Connecticut and Oregon exceed an average, while the percentage of below an average are as follows: Newport, 36; Illinois, 30; Indiana, 2; Ohio, 7; Michigan, 5; Wisconsin, 20; Minnesota, 30; Iowa, 15; Nebraska, 11; California, 2. The chinch bug has been most destructive to the spring wheat than in any season since the inauguration of these reports. The extent of the mischief from insects, rust and drought combined—is established until the spring wheat has matured, and the yield and quality of the berry are indicated by the thresher.

Gold is 3% higher than last week, though we do not anticipate a very high premium for gold, for Secretary Boutwell has always a balance in the treasury too large to cause operators to pay any thing for it; but at the same time the reasonings for a high gold market are very plausible, viz: For the six months ending June 30, the quantity of imported merchandise put upon the market in New York, in gold values, was as follows:

Imports, goods	$262,665,194
Exports, goods	201,555,752
Excess in imports	$61,109,442
Imports, treasure	$9,420,737
Exports, treasure	41,554,022 $32,119,285
Balance imports goods	$48,989,657

As the most of foreign goods are brought in foreign vessels, add to the above at least $16,000,000 for freight, which will be carried away; also, add semi annual interest due abroad, $10,000,000; drafts, estimated, of American travelling abroad, $20,000,000, and $5,000,000, Government expenses abroad, and we have a total of $148,989,657 to be paid for out of exports of bonds or treasure, or exports of produce. From this exhibit all produce exported will not more than meet our obligations in Europe for goods bought or shipped and sold on this coast. On the Atlantic side one of the principal sources of supplying exchange to Europe has been the cotton crop; but this year there is a prospect of the yield of cotton being reduced from 15 per cent. of the cotton acreage to nine. The yield per acre will not be an average. The cotton alone, as a medium of exchange, will fall probably by several million dollars, under the price obtained on a less acreage cultivated. We are inclined to the opinion that as willing the past six months the imports into Europe have been in excess of obligations incurred will hardly be due before the cotton crop finds its way to Europe. And as our importations for the first year, ending June 30, have not been in precedent, we think that our market for European commodities is glutted; and as prices in Europe are as high as with us, it is not easily to further importations, so that everything will work as usual without causing much change in the price of gold.

Produce Report.

EGGS—Stock on hand is large. Per *Constantine*: Junion & Rhodes received in bond 50,000 to-day. We quote this article at same standard size.

EGGS—Market firmer at 31@33c per dozen, on advance of 2@3c on last quotations.

BACON—One firm received by telegraph to-day an order to the amount of 50 cs, to await shipment by steamer to Victoria and Puget Sound. We quote prices, loose, as follows: Hams, city include, 150 bds superfine, 16 to 17c; 50, and 100 bbls extra at 20 per bbl. Stocks are being slowly reduced.
